- Homepage
  - The background video is not placed/sized properly for different screens,i.e.it is not responsive especially for smaller screens.
  - Email verification needs to be implemented
- Dashboard
  - Side Navigation
    - Icons need to be changed
    - Black outline should be removed from the focused state of all the input fields.
    - Add the top section in the side navigation-alcher id,team members,events registered
- Team Members
  - Delete button in members not visible
  - Add Member section should only be visible after clicking add member button.It should not come upon loading for the first time.
- Competitions
  - The mobile version of competition page is not according to the design.Refer Figma
  - In the mobile,when a module is selected,the div should expand there itself rather than expanding in the top.
  - In the desktop version too,the layout should be improved.Refer Figma
  - Remove the offline/online tag from the competitions.All competitions will be online.(Hide it.might be required later)
  - In the competition registration page,a team leader is always added as a participant while registering.He/ she should only be added if selected like other members.
